**RE: EPA CONCURRENCE ON THE FINAL HANGAR 1 ACTION MEMORANDUM,  
FORMER NAVAL AIR STATION MOFFETT FIELD, CALIFORNIA.**

Dear Mr. Turner:

The U.S. Environmental Protection Agency (EPA) has reviewed the Final Hangar 1 Action Memorandum (AM) which documents NASA Ames' decision to conduct a non-time-critical removal action for Hangar 1, Installation Restoration (IR) Site 29, located at the former Naval Air Station Moffett Field. EPA concurs with NASA Ames' decision as the non-time-critical removal action will control the release of polychlorinated biphenyls and lead from the aboveground building materials within IR Site 29 as described in the Final Hangar 1 Engineering Evaluation/Cost Analysis (December 2019) (EE/CA).

Pursuant to this AM and the Final Hangar 1 EE/CA, EPA expects that NASA Ames will provide a draft comprehensive work plan detailing the removal action for EPA's review. In addition, per Section 9 of the Final Hangar 1 AM, NASA Ames will prepare a Record of Decision for IR Site 29 once the non-time-critical removal action has been successfully implemented to document any necessary land use controls required within IR Site 29.

EPA looks forward to the continued coordination with NASA Ames on this non-time-critical removal action. If you have any questions, please contact Lucrina Jones at (415) 972-3006 or [jones.lucrina@epa.gov](mailto:jones.lucrina@epa.gov).

Sincerely,

Angeles Herrera  
Assistant Director, Superfund &  
Emergency Management Division  
Federal Facility & Site Cleanup Branch
