**Subject: Concurrence with Final Five-Year Review Report, Naval Air Station  
Moffett Field Superfund Site, Installation Restoration (IR) Landfill Sites 1  
and 22, Moffett Field, Santa Clara County**

Dear Mr. Turner,

Regional Water Board staff reviewed the [July 2020 Final Five-Year Review Report for Landfill Sites 1 and 22](#) (FYR Report). The FYR Report was prepared to evaluate the implementation and performance of the selected remedies at Installation Restoration (IR) Sites 1 and 22, including evaluating whether the remedies are and will remain protective of human health and the environment. The FYR Report presents issues with the remedy, if any, identified during the five-year review period that could affect the protectiveness of the remedy and recommendations for each IR Site that may improve the remedy performance, but do not affect the current or future protectiveness.

Regional Water Board staff concur with the recommendations and the protectiveness statements presented in the FYR Report for IR Sites 1 and 22. It is the understanding of Regional Water Board staff that the next FYR Report is due on February 12, 2025.

If you have any questions regarding this letter, please contact Phyllis Flack of my staff at [Phyllis.flack@waterboards.ca.gov](mailto:Phyllis.flack@waterboards.ca.gov).

Sincerely,

*Terry Seward*

Terry Seward  
Groundwater Protection Division Chief
