Ms. Phyllis Flack, P.E, P.G. (*pdf via email*)
Moffett Field Project Manager
San Francisco Bay Regional Water Quality Control Board
1515 Clay Street, 14th Floor
Oakland, CA 94612

SUBJECT: NASA Ames Research Center
Hangar 1
Final Action Memorandum

Dear Ms. Jones and Ms. Flack:

Please find enclosed a Final Action Memorandum to document NASA Ames' decision to conduct a non-time-critical removal action for Hangar 1, Installation Restoration (IR) Site 29, located at the former Naval Air Station Moffett Field. The removal action will control the release of polychlorinated biphenyls and lead from the aboveground building materials within IR Site 29 located within as described in the Final Hangar 1 Engineering Evaluation/Cost Analysis (December 2019).

Please contact me at 650-604-1406 or garrett.michael.turner@nasa.gov with any questions.

Sincerely,

Garrett Michael Turner, P.E., PMP
Restoration Project Manager
Environmental Management Division
